

QUALTRANSLOC

professional translation services

Who we are

We are a young, dynamic team, with a vast experience in the area of professional translation services.

We at QUALTRANSLOC have extensive translation experience in all subject matters and serve a number of different types of clients, in various industries and sectors of the global economy.

We believe that the quality of our services starts with the quality of our team members. Therefore, we have developed a screening process that ensures that we only recruit highly skilled native linguists and support experts.

We believe flexibility in our business is an art. As it's an art to have the ability to react, adapt, and change - and thrive as a result.

Have a big project that needs to be delivered in just a few days? Or a limited budget? We surely have a solution.

What we offer

- High quality
- Competitive rates
- Full support
- Limitless flexibility

Our services

Translations

We translate service manuals, shop manuals, specifications, business proposals, feasibility studies, technical and economic assessments, annual reports, presentation slides, advertising materials, catalogs, and brochures in over 100 languages.

Localization

Localization can apply to any type of content based on what your business objectives are. We always work with experts who have excellent language skills and knowledge of the target cultural environment.

Transcreation

We believe that the goal of transcreation isn't to say the same thing in another language; the aim of the game with transcreation is to get the same reaction in each language, something that translation in itself won't be able to achieve.

DTP

DTP (Desktop Publishing) refers to the creation of documents using page layout software. We only work with highly talented multilingual desktop publishing translation (DTP translation) specialists.

Transcription

We can work with video files, audio files or even physical media. You'll get reliable transcriptions every time – and with our expert translators and transcreation experts, we can deliver the text to you in any language, ready for a new audience.

Subtitling

Subtitling requires the skills and experience of expert linguists. To ensure that the appropriate terminology is used in each language, we always choose native-speaking professional translators based on the subject matter of the video.

Interpretation

We provide consecutive and simultaneous remote interpreting services and use the most popular communication software tools, including MS Teams, Zoom, GoToMeeting, and WebEx.

Written translations

starting from 0.07 EUR/word

Written Translations are a reproduction of the content of the original document by means of the language of translation, in written form.

We translate service manuals, shop manuals, specifications, business proposals, technical and economic assessments, annual reports, presentation slides, advertising materials, catalogs and brochures in over 100 languages.

Editing

starting from 0.02 EUR/word

Editing is the process of examining a text with the intention of improving the flow and quality of writing. In other words, the process of checking and improving the copywriting of a document.

This process concentrates on the overall goals of the document and evaluates whether the work is in alignment with them.

Proofreading

starting from 0.035 EUR/word

Proofreading is the process of examining a text and focusing on the details of proper language use and physical layout of the work.

The context, terminology, and facts are quite irrelevant here, as the job focuses on the correctness of the text.

Localization

starting from 0.105 EUR/word

Localization involves more than just translation. It is a more comprehensive process and addresses cultural and non-textual components as well as linguistic issues when adapting a product or service for another country or culture.

If our task is to localize something, we always work with experts who have excellent language skills and knowledge of the target cultural environment.

Transcreation

starting from 0.105 EUR/word

Transcreation is about taking a concept in one language and completely recreating it in another language - it is usually applied for the marketing of an idea, product or service for international audiences.

We believe that the goal of transcreation is to get the same reaction in each language, something that translation in itself won't be able to achieve.

DTP

starting from 2 EUR/page

DTP stands for Desktop Publishing and refers to the creation of documents using page layout software.

Typically, this includes the combining and rearranging of text and imagery (in case there are any images) through computer software, using Fonts and Graphics of your choice, to produce documents such as Newsletters, Brochures, Manuals, Slide shows, Books, etc.

Transcription

starting from 5 EUR/minute

Transcription is the method of converting an oral speech into text. Right now, transcription is more important than ever, as online video becomes the most consumed media in the world.

We can work from video files, audio files, or even physical media. You'll get reliable transcriptions every time and we can deliver the text to you in any language, ready for a new audience.

Subtitling

starting from 7 EUR/minute

Subtitling can be defined as the process of providing synchronized captions for film and television dialogue. Linguists must be able to convey the original message without leaving out any relevant information while still reducing the number of words needed in places.

To ensure that the appropriate terminology is used, we always choose native-speaking professional translators based on the subject matter of the video.

Interpretation

starting from 3 EUR/minute

Remote interpreting removes not only language barriers but also physical distance, giving you the flexibility and opportunity to reach as many people as possible for your events.

We provide consecutive and simultaneous remote interpreting services and use the most popular communication software tools, including MS Teams, Zoom, GoToMeeting, and WebEx.
